

Project Architect / Senior Architect

About us

JDA Architects is a highly commended, award-winning architectural practice established in 1998. Our multinational team brings a unique and diverse cultural perspective to every project. We are committed to architectural excellence, professionalism, and exceptional client service.

With nearly three decades of experience in retail, commercial, mixed-use developments, urban design, conservation, project management, and sustainability, we have built lasting partnerships with long-standing clients.

We invest fully in every project, striving for excellence from concept through to completion. Our people-first approach places culture and wellbeing at the heart of our practice.

About the role

This role is ideal for an Architect seeking to establish their own team and pipeline of work within the residential and commercial sectors. Initially, the position will involve working predominantly independently. Over time, we intend to build a team around this senior role to support the growing workload.

You will possess the skills necessary to define each project's scope of work and deliverables, and will have the ability to manage a project from inception to completion. As a senior member of the team, you will also be expected to contribute to the development and mentoring of junior team members.

Skills and experience

- RIAI Registered Architect
- Excellent working knowledge and a proven track record of delivering projects from feasibility through planning, tender/contract, and construction stages
- In-depth knowledge of Irish Building Regulations and BCAR
- Over 15 years' experience as an architect
- Proficient in ArchiCad or Revit
- Proficient in BIM
- Design-oriented architect, confident in developing designs from concept to completion
- Proven track record in both the residential and commercial sectors
- Strong leadership, management, and communication skills
- Highly capable and motivated to work independently and lead a team

What's in it for you?

In addition to our people-first, culture-driven approach, JDA Architects offers a variety of additional benefits that make it a great place to work, including:

- Flexible working model
- Competitive market salary

- Contribution-based pension scheme
- Opportunity to be part of a growth-focused, ambitious team

To apply for this position at JDA Architects, please send a cover letter, along with a PDF of your CV and portfolio, to careers@jdaarchitects.ie.
